IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Si Lok *et al.*

Serial No.: 09/617,389

Group Art Unit: 1647

Filed: July 17, 2000

Examiner: Christine J. Saoud

For: Antibodies That Bind Testis-Specific Insulin Homolog Polypeptides

RECEIVED
JAN 28 2002
TECH CENTER 1600/2900

Response to Restriction Requirement

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action dated September 28, 2001, Applicants hereby provisionally elect with traverse the claims of Group III, claims 8 to 10 for prosecution in the subject application. Applicants reserve the right to file a divisional application covering the subject matter of the non-elected claims.

Applicants respectfully request reconsideration of the additional restriction requirement described in paragraph 11 of the Office Action in which the Examiner has indicated that antibodies to various fragments of the polypeptides are subject to restriction. Applicants respectfully assert that a search of the prior art for the subject matter of Group III with regard to the amino acid sequence of SEQ ID NO:13 would encompass the subject matter of Group III with regard to portions of the amino acid sequence of SEQ ID NO:13, and therefore, examination of the latter would not pose a serious burden to the Examiner.

Accordingly, Applicants request the Examiner to withdraw the restriction requirement with regard to the amino acid sequence of SEQ ID NO:13 and portions of this sequence. A favorable disposition of this case on the merits is requested.

Respectfully submitted,

ZymoGenetics, Inc.
